Specify crops

Specify crops

INSTRUCTION

1. Click on Settings in Grain App.
2. Click on Crops.
3. Click on NEW.

Specify crops

The screenshot shows two app screens. The left screen is 'Manage crops' with a 'NEW' button. The right screen is 'New Crop' with a 'SAVE' button. An orange arrow points from the 'NEW' button to the 'New Crop' form.

Manage crops (Left Screen):

- Back arrow
- NEW button

New Crop (Right Screen):

- Back arrow
- SAVE button
- Crop* (text input)
- Variety (text input)
- Icon* (grid of crop icons):
 - Rye
 - Sunflower
 - Oats
 - Beans
 - Rapeseed
 - Wheat (highlighted with an orange border)
 - Crop
 - Peas
 - Flax
 - Maize
 - Barley
- Water content dry* (%) (text input) 8 - 40
- Volume weight (kg/m3) (text input) 300 - 900
- Market value (/kg) (text input)

INSTRUCTION

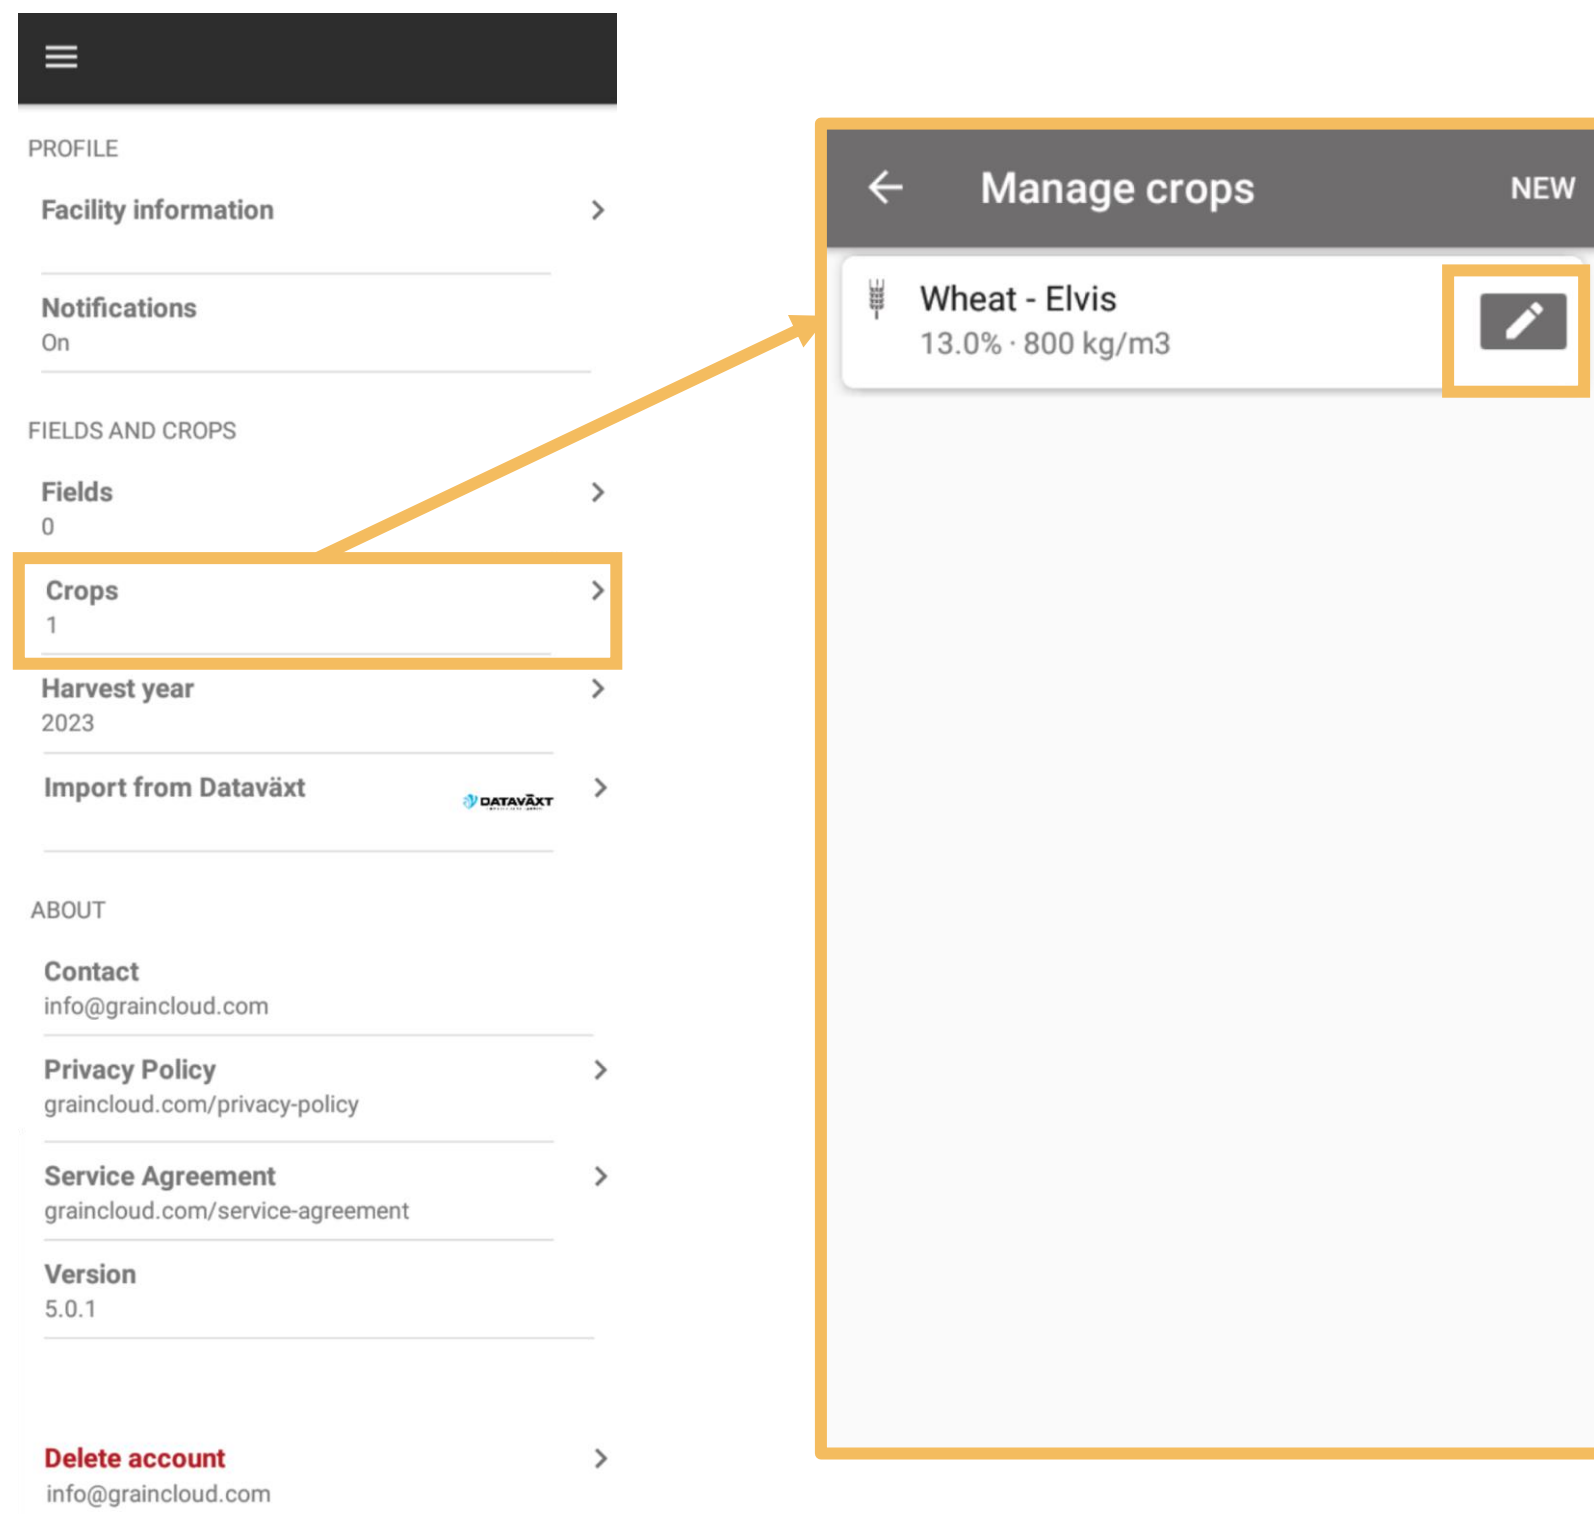

4. Fill in Crop.
5. Fill in Variety.
6. Tick preferred crop Icon.
7. Fill in Water content dry. This value is the target water content for the specific crop when dried. The value is used to calculate your dry inventory balance.
8. Fill in Volume weight.
9. Fill in Market value.
10. Click Save.

Note!

*All headings with * are mandatory to fill in.*

Crop, Icon and Water content dry is mandatory.

Specify crops

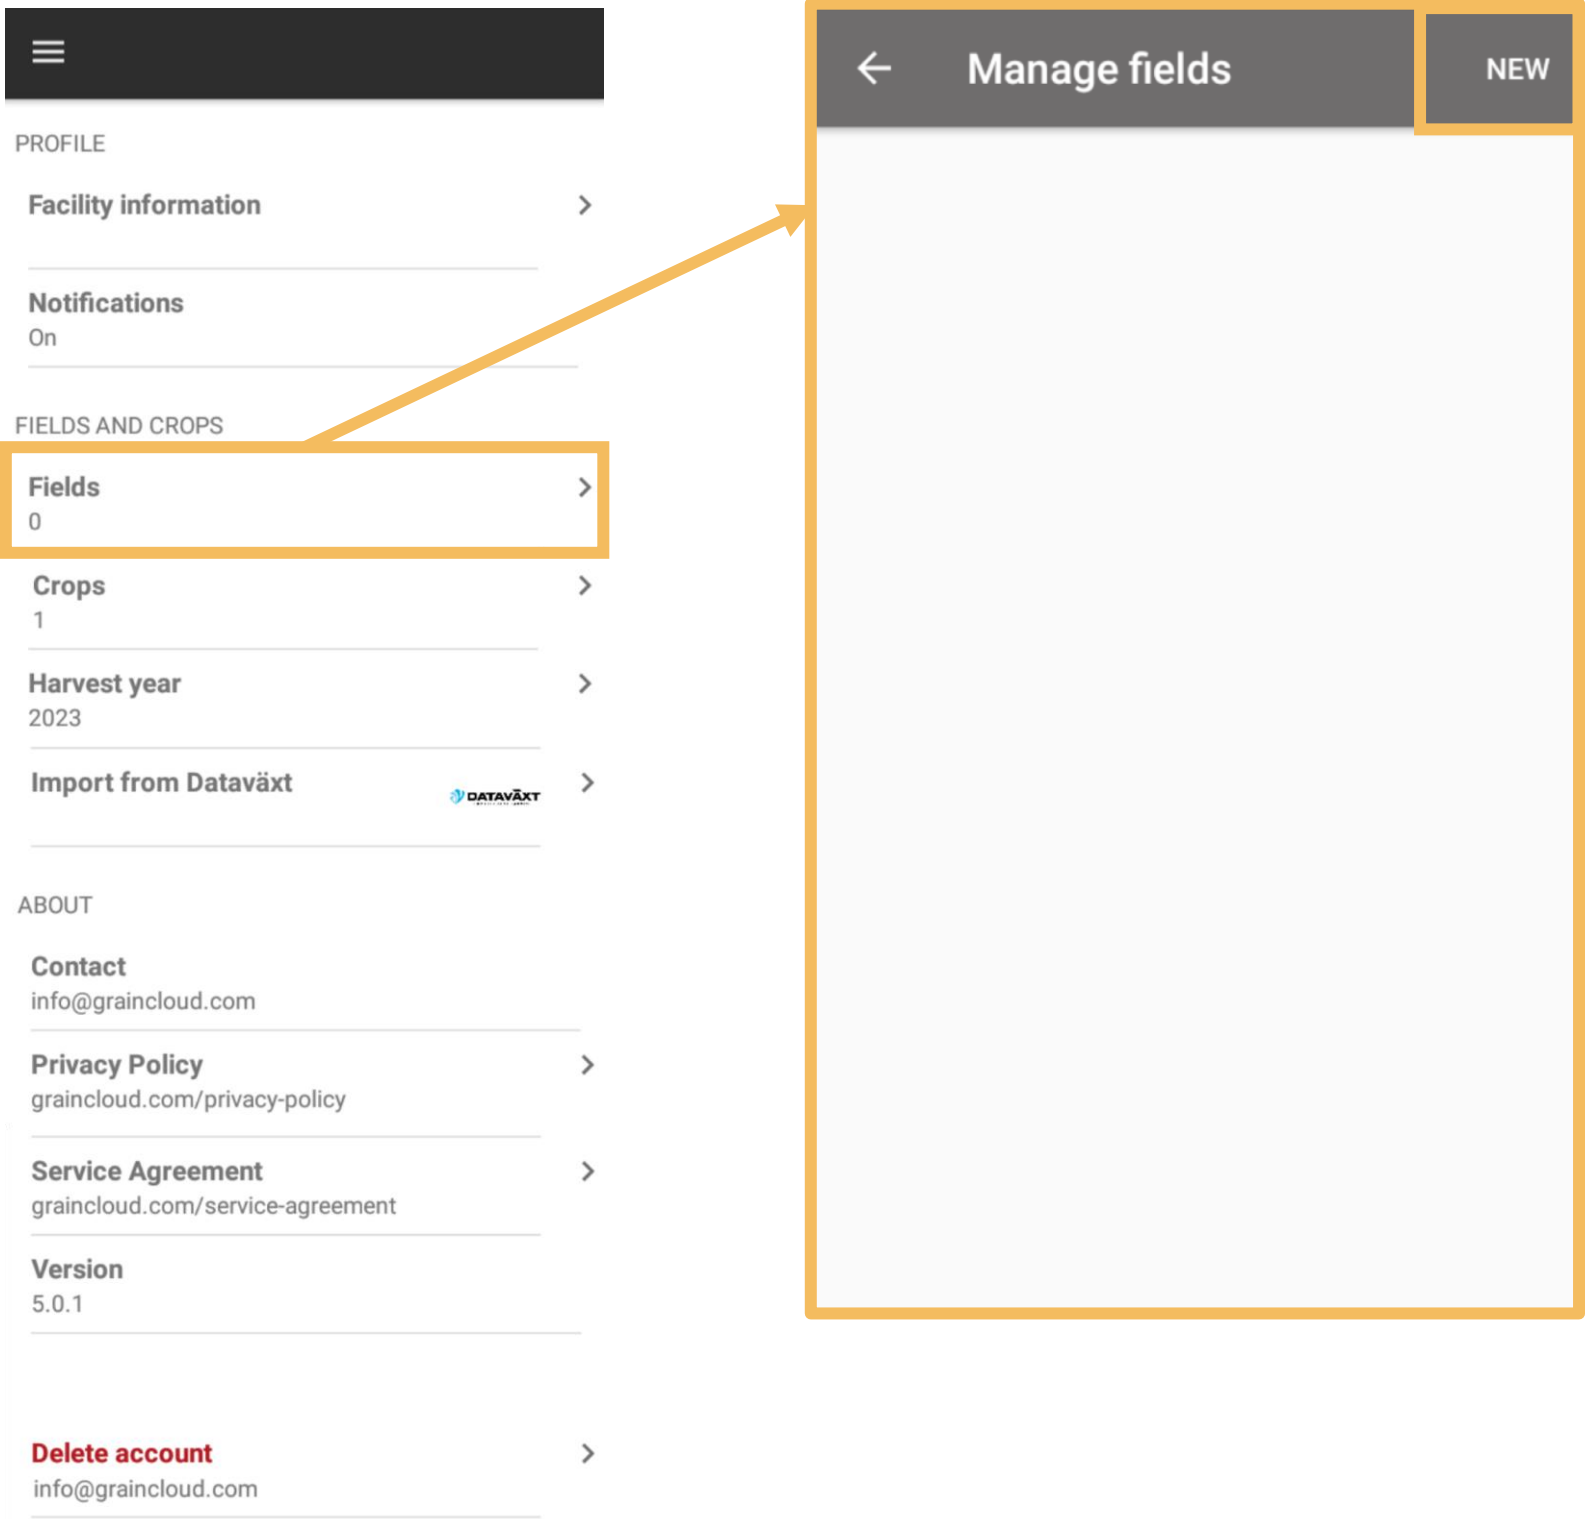

INSTRUCTION

11. Your saved crop is now displayed by number under Settings.
12. Click on Crops and the list of your crops is displayed.
13. Click on pencil icon to edit a crop.

Specify fields

Recommended to do after specified crops.

Specify fields

INSTRUCTION

1. Click on Settings in Grain App.
2. Click on Fields.
3. Click on NEW.

Specify fields

The screenshot shows the 'Manage fields' app interface. The 'NEW' button is highlighted with an orange box. An arrow points from this button to the 'New Field' form. The form has a header with a back arrow, 'New Field', and a 'SAVE' button. The form fields are: 'Name*' (mandatory), 'Owner', 'Acreage (ha)', 'Crop' (with a pencil icon and 'No crop selected' text), and 'Water content (%)' (with a range of '8 - 40'). An inset shows the crop selection screen with 'Wheat - Elvis' selected.

INSTRUCTION

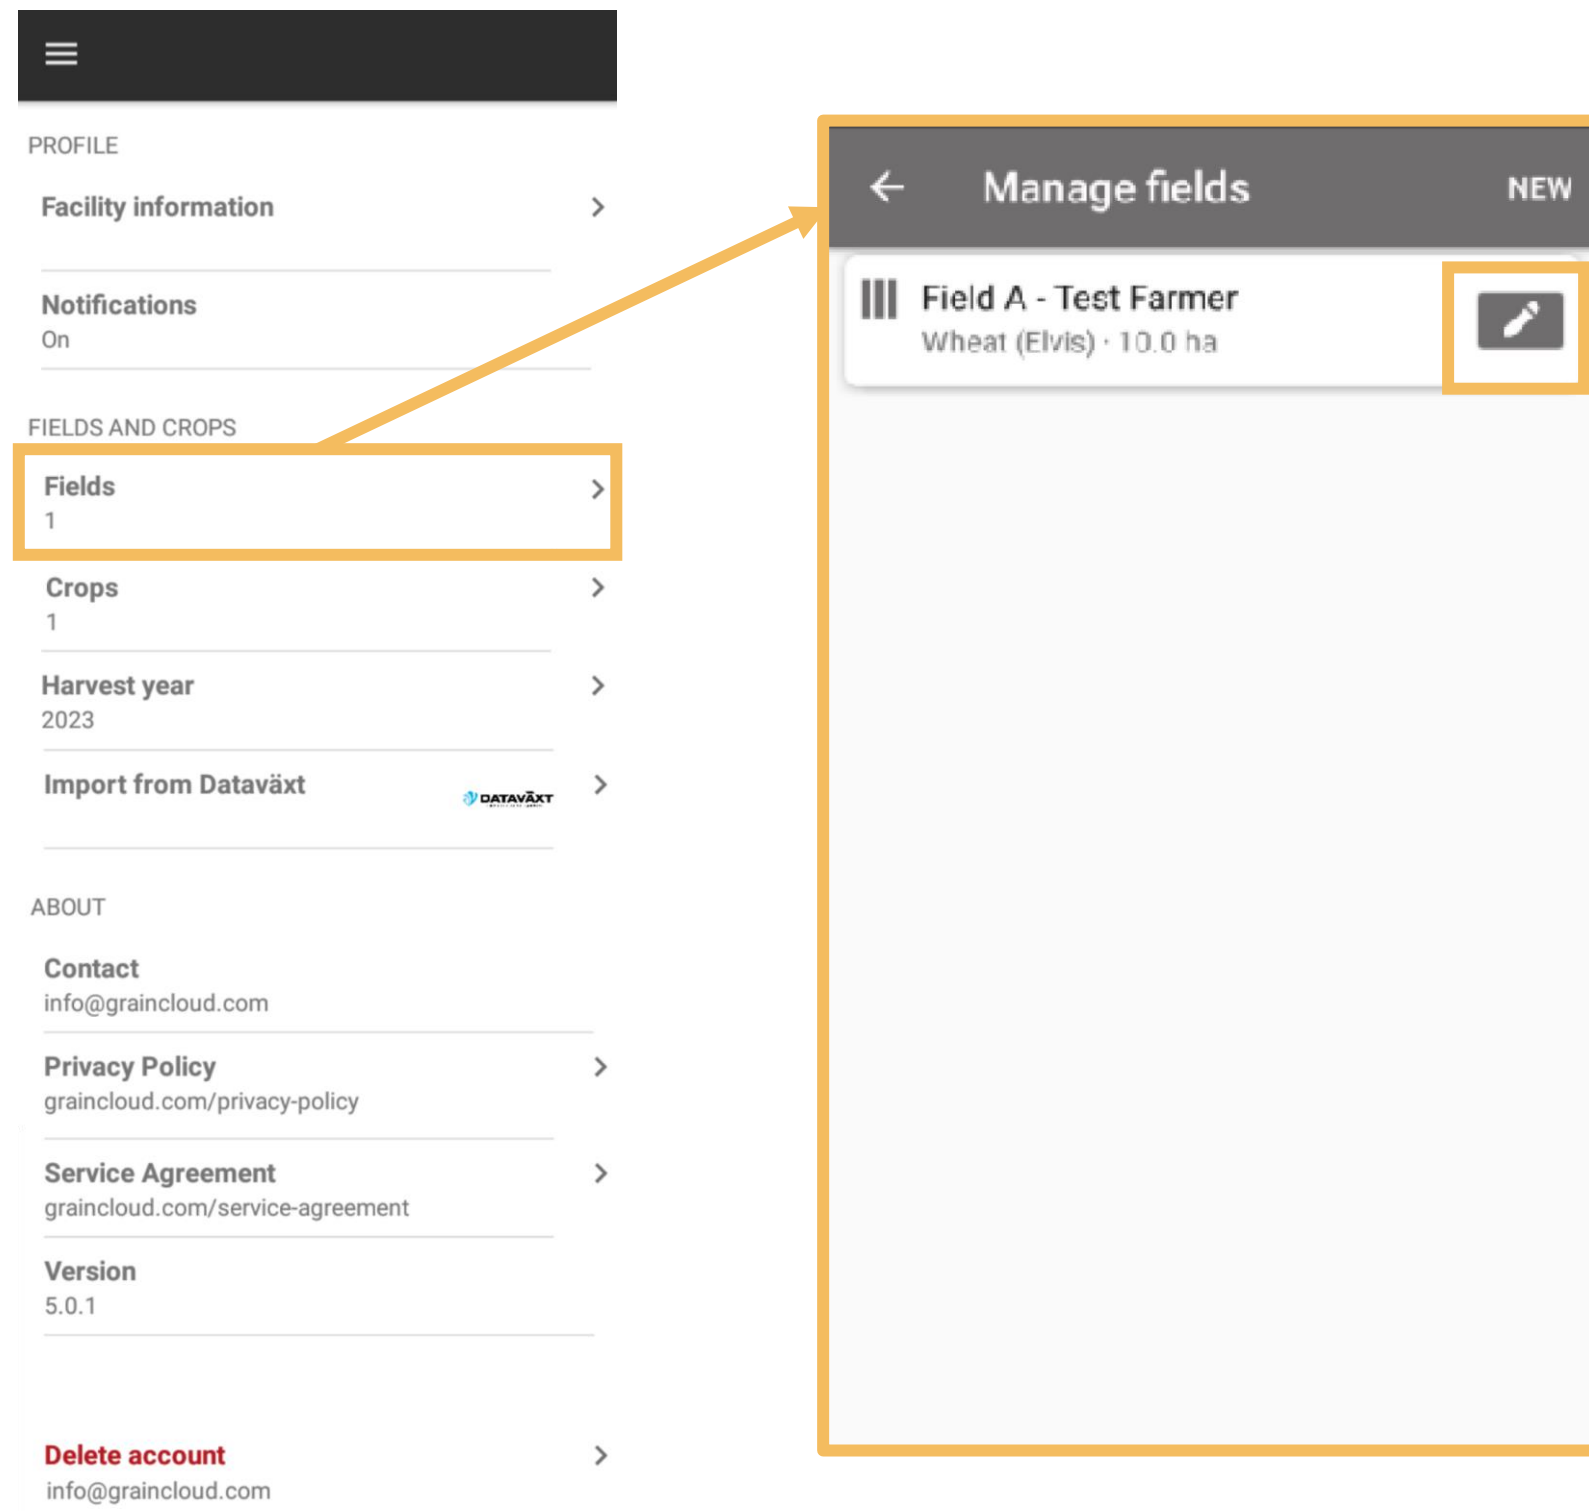

4. Fill in Name.
5. Fill in Owner. To be filled in, for example, if you are drying grain for someone else and then want to fill in their name, alternatively if you know that the grain in this field is to go to animal feed, you can enter this instead.
6. Fill in Acreage.
7. Click on the pencil icon to select which Crop is grown on the field.
8. Fill in Water content wet. This value is the expected wet water content of the specific crop on this field when harvested. The value is used to calculate your wet inventory balance.
9. Click Save.

Note!

*All headings with * are mandatory to fill in.*

Name is mandatory.

Specify fields

INSTRUCTION

11. Your saved fiels is now displayed by number under Settings.
12. Click on Fields and the list of your fields is displayed.
13. Click on pencil icon to edit a field.

BEST OF LUCK!
